# INDEX

Acetylcholine, brain trauma, 349
Action potentials, centripetal impulses, 191
——, choline esterase, 9
——, DFP and, 241, 253
——, dorsal root ganglion cells, 173
——, ventral roots, 191, 241, 253
ADES, H. W., and RAAB, D. H. Recovery of motor function after two-stage extirpation of area 4 in monkeys (*Macaca mulatta*), 55
ALEXANDER, R. S. Tonic and reflex functions of medullary sympathetic cardiovascular centers, 205
Anticonvulsant drugs, 231
Antidromic conduction, See Conduction
APTER, J. T. Eye movements following strychninization of the superior colliculus of cats, 73
Asphyxia, peripheral nerve, 275

BEATON, L. E., See KELLY, A. H., 181
Blood, oxygenation and circulation of, 33
BORNSTEIN, M. B. Presence and action of acetylcholine in experimental brain trauma, 349
BOSMA, J. F., and GELLHORN, E. Electromyographic studies of muscular coordination on stimulation of the motor cortex, 263
Brain, localized pressure, 63
——, metabolism, 133
Brain stem facilitation, cortical motor response and, 219
Brain trauma, acetylcholine and, 349
BULLOCK, T. H., NACHMANSOHN, D., and ROTHENBERG, M. A. Effects of inhibitors of choline esterase on the nerve action potential, 9
——, GRUNDFEST, H., NACHMANSOHN, D., ROTHENBERG, M. A. and STERLING, K. Effect of di-isopropyl fluorphosphate (DFP) on action potential and choline esterase of nerve, 253

CAMPBELL, B. Morphology and conduction of bipolar dorsal root ganglion cells of selachian fishes, 173
Carbonic anhydrase, 41
Cardiovascular centers, sympathetic, 205
CASEY, E. J., See KUNTZ, A., 445
Cat, brain stem facilitation, 219
——, cardiovascular centers, 205
——, d-amphetamine and postural activity, 379
——, eye movements, 73
——, knee jerk, 317
——, peripheral nerve, 275
——, pyramidal tract, 121
Cellular hydration, 47
Centripetal stimulation, knee-jerk, 317
Cerebral oxygen tension, 33
Cerebrospinal fluid, acetylcholine and, 349
Choline esterase, 2, 241, 253
COHN, R. Influence of harmonic content on the wave forms of the human electroencephalogram, 161
Conduction, antidromic, 191
Conductor, nerve, asphyxia and, 275
——, choline esterase and, 241, 253
——, DFP and, 241, 253
Contraction, voluntary, 399
Contracture, skeletal muscle, 367
Convulsions, electroshock, 47
Cortical motor response, See Motor response, cortical
Cortical stimulation, pupillary dilatation and, 329
Cortico-bulbo-reticular pathway, area 4-S, 127
——, reticular formation, 165
Cortico-cortical connections, 453
CRESCITELLI, F., KOELLE, G. B. and GILMAN, A. Transmission of impulses in peripheral nerves treated with di-isopropyl fluorphosphate (DFP), 241

D-amphetamine, 379
DAVENPORT, H. W. Carbonic anhydrase in the nervous system, 41
Di-isopropyl fluorphosphate (DFP), 241, 253
Dog, brain trauma and acetylcholine, 349
Dorsal root ganglion cells, morphology and conduction of, 123
Dorsal root potentials, 139

ECCLES, J. C. Synaptic potentials of motoneurones, 87
——, and MALCOLM, J. L. Dorsal root potentials of the spinal cord, 139
Electric potential changes, contracture in muscles and, 367
Electric shock therapy, 387
Electroencephalogram, brain trauma, 349
——, cerebral compression, 63
——, effects of pressure, 63
——, influence of harmonic content on, 161
——, wave forms, 161
Electrophonic effect, 23
Electromyographic studies, muscular coordination, 263
Epilepsy, anticonvulsant drugs and, 231
Excitation, reflex arcs, 439
Eye movements, strychninization and, 73

Facilitation, knee jerk, 317
——, spinal motoneurones, 421
Facio-vocal activity, 181
Fish, dorsal root ganglion cells, 175
Frog, skeletal muscle, contracture, 367

GELLHORN, E., See BOSMA, J. F., 263
GILMAN, A., See CRESCITELLI, F., 241
GLASER, M. A., and SJAARDEMA, H. Effect on the electroencephalogram of localized pressure on the brain, 63
GOODMAN, L. S., See SWINYARD, E. A., 47
——, See TOMAN, J. E. P., 231
GOODWIN, C. W., See ROSEMAN, E., 33
GRAF, C., See MCCULLOCH, W. S., 127
GROAT, R. A., and KOENIG, H. Centrifugal functional deterioration of asphyxiated motor nerve within the neural axis, 464
——, and ——. Centrifugal deterioration of asphyxiated peripheral nerve, 275
GRUNDFEST, H., See BULLOCK, T. H., 253

HARD, W. L., and LASSEK, A. M. The pyramidal tract. Effect of maximal injury on acid phosphate content in neurons of cats, 121
HIMWICH, H. E., See HIMWICH, W. A., 133
HOAG, A., See WEISS, P., 413
Hypothalamus, sleep and, 285

Inhibition, knee-jerk, 317
——, nerve muscle junction, 337
——, reflex arcs, 439
——, spinal motoneurones, 421
Inhibitory mechanism, reticular formation and, 165

KATZ, B., See KUFFLER, S. W., 337
KELLAWAY, P. The mechanism of the electrophonic effect, 23
KELLY, A. H., BEATON, L. E., and MAGOUN, H. W. A midbrain mechanism for facio-vocal activity, 181
KOELLE, G. B., See CRESCITELLI, F., 241
KOENIG, H., See GROAT, R. A., 275, 464
Knee-jerk, inhibition and facilitation of, 317
KUFFLER, S. W. The relation of electric potential changes to contracture in skeletal muscle, 367
——, and KATZ, B. Inhibition at the nerve muscle junction in crustacea, 337
KUGELBERG, E. and SKOGLUND, C. R. Natural and artificial activation of motor units—A comparison, 399
——, and ——. Responses of single human motor units to electrical stimulation, 391
KUNTZ, A. and RICHINS, C. A. Reflex pupillodilator mechanisms. An experimental analysis, 1
——, ——, and CASEY, E. J. Reflex control of the ciliary muscle, 445

LASSEK, A. M., See HARD, W. L., 121
LLOYD, D. P. C. Facilitation and inhibition of spinal motoneurons, 421
——, Integrative pattern of excitation and inhibition in two-neuron reflex arcs, 439

MCCULLOCH, W. S., GRAF, C. and MAGOUN, H. W. A cortico-bulbo-reticular pathway from area 4-S, 127
MAGOUN, H. W., See KELLY, A. H., 181
——, See MCCULLOCH, W. S., 127
——, See RHINES, R., 219
——, and RHINES, R. An inhibitory mechanism in the bulbar reticular formation, 165
MALCOLM, J. L., See ECCLES, J. C., 139
MALING, H. M. Frequency of centripetal stimulation in inhibition and facilitation of the knee-jerk, 317
——, and ACHESON, G. H. Righting and other postural activity in low-decerebrate and in spinal cats after d-amphetamine, 379
Midbrain mechanism, facio-vocal activity and, 181
Monkey, brain stem facilitation, 219
——, cortico-cortical connections, 453
——, motor function, 55
——, pupillary dilatation, 329
Motor cortex, stimulation of, 263
Motor function, area 4 and, 55
Motoneurones, synaptic potentials of, 87
Motor response, cortical, brain stem facilitation of, 219
Motor units, stimulation electrical, 391
—— ——, natural and artificial activation, 399
Muscle, ciliary, 445
——, reinnervation of, 413
——, skeletal, 367
Muscular coordination, 263

NACHMANSOHN, D., See BULLOCK, T. H., 9, 253
NAUTA, W. J. H. The hypothalamic regulation of sleep in rats. An experimental study, 285
Nerve conduction, See Conduction
Nerve, motor, asphyxiated, 463
——, ——, deterioration of, 463
Nerve muscle junction, inhibition at, 337
Nerves, reinnervation of muscles by, 413

OFFNER, F. Stimulation with minimum power, 387

PEDEN, J. K. See WARD, A. A., JR., 453
Peripheral nerve, asphyxia of, 275
Pupillary dilatation, cortical stimulation and, 329
Pupillodilator mechanisms, 1
Pyramidal tract, acid phosphatase and, 121
Pyruvic acid, brain, 133

RAAB, D. H., See ADES, J. W., 55
Rabbit, EEG, 63
Rat, hypothalamic regulation of sleep, 285
——, reinnervation of muscles, 413
